What is a great nation and what a little nation?

A nation is great while it has within itself the spirit that makes greatness. It is small when that spirit dies. Do not imagine that little countries in Europe ruled by others are necessarily as deserv-ing of freedom or as fit for it as those that are free and self-gov-craing.

Montesquieu says in the third "Athens had in her breast the same power when she dominated with so much giory as when she served with so much shame.

"She had twenty thousand citi-

zens when she defended the Greeks against the Persians, disputed the empire with Lacedemonia and at-tacked Sicily.

"She had twenty thousand citi-

sens when Demetrius de Phalare numbered them as one counts slaves in the market."

It was not the great number of Greeks that made it possible for Athens to hold back and defeat the millions of Persis.

It was not the small number of Greeks that made it so easy later for Philip or anybody else to conquer Athens.

The trouble was that Athens feared Philip, father of Alexander, not as an enemy of the LIB-ERTY of Athens, but as an enemy of the PLEASURES of Athens. When Athens was great the money that the citizens could have

spent on themselves they voted to spend on national defense. And the same Athens with the same population later in the years of disgrace "had passed a law to punish with death whoever should propose using for national defense the money that had been set aside for the public theaters."

When a little tree blows over in the wind it isn't because it was a LITTLE tree.

And it doesn't plow over because there are great trees near it. After it has blown over you see where the break comes—that it is de-

And the same number could be conquered by anybody after they had passed a law punishing with

That brings us to discussing the safety and the protection of this country, which will be safe while it retains the spirit shows in this war, as in 1735, and hever safe without that spirit, no matter how big its sray or navy.

A man named William Hohensollern built a gigantic standing temptation to give it a "tryout." Now at night he sees above his head the French guillotine, the English noose, the suicide's pistol, and saks himself: "Which?"

There are powerful men in the United States that have always wanted a great standing army. They found that men hired from Pinkerton in great strikes were not satisfactory.

There are men of power and wealth with better intentions who say: "What harm can there be in a great standing army? At least, will always protect property, stability and conservatism.

But will it? The Czar had a great rianding army. Trotsky and Lenine have it now. Be careful how you build a dangerous weapon that somebody else may take from you and use

against you. Please remember that there is no country in the world in which it would be more difficult than in America to keep in barracks five thousand IDLE men, ready to obey orders from above, always refraining from starting out on their own book.

LONDON, Dec. 22.—President and Mrs. Wilson will arrive in London next Thursday and will meet King George and Queen Mary the same afternoon, it is officially announced here. Mr. and Mrs. Wilson will return

The Presidential party will arrive at Dover at 12:10

King George personally will meet President Wilson at the London railway station, the Evening News states.

On the drive to Buckingham Palace the President and Mrs. Wilson will be taken over the same route as Field Marshal Haig in his triumphant procession on Thursday. The clubs and residences along the streets have been asked to put out decorations.

Will Dine With British Royalty.

The Wilsons and their majesties will dine privately at the palace Thursday evening. Friday will be reserved for the President to meet the cabinet members. That evening there will be a banquet at the palace.

The President will attend a reception at the Guild Hall on Saturday. In the evening he will be the guest of the government at a dinner at Lancaster House. After the dinner the Wilsons will leave for Carlisle, the birthplace of the President's grandmother, arriving there early Sunday morning. The visit to Carlisle will be private and without ceremonies.

Sunday afternoon the President will go to Manchester, where he will be the guest of the lord mayor. He will return to London that night. He is expected to return to Paris on

Preparing at Buckingham Palace.

At Buckingham Palace everyone is busily preparing for the Wilsons. During the war the staff of servants was greatly reduced and many of the rooms were utilized by the Queen and Princess Mary for their special charities.

The Manchester Guardian, commenting on the fact that Wilson will be the first President to stay at Buckingham, said "it will be an interesting test of court etiquette how he comes through with his experience."
